

# Tricare Changes Coming in October

---

**April 03, 2017**

There are changes coming to Tricare! Tricare is currently divided into 3 regions – North, South & West. The North is handled by Health Net Federal Service (HNFS), South is handled by Humana Military and West by United Healthcare.

In October 2017, Health Net Federal Services will handle the West region and the North and South regions will combine to create Humana Military East. Due to these changes, it will take longer to obtain contracts and complete credentialing for Tricare.

However, these changes will not affect any current Tricare participation.
